

Guidelines for the Preparation and Presentation of Posters

Preparation

- The poster's dimension should be A0 (841 mm x 1189 mm), its layout should be vertical and the fonts, figures, tables, etc. should be used in accordance with the poster's size.
- In the upper part of the poster, the paper's title and the authors' details should be included. Its main part should be divided into distinct sections, where key information of the scientific paper must be presented (e.g. Introduction, Methodology, Outcomes, Conclusions, Main bibliographic references).
- It is not required to submit the poster electronically before the start of the conference, however the authors should bring it to the conference's venue in the designated poster session area, at least 30 minutes before the start of the session.
- The exact position where the poster should be placed will be indicated by the code number attributed to the scientific paper.
- For each poster, an area of 1 m (width) x 1,5 m (height) will be available and a double-faced tape will be provided for attaching the poster to the appropriate position.

Presentation

- Authors are kindly requested to stand in front of their posters during the whole duration of the respective session and be prepared to make a brief presentation, no more than 5 minutes, to the conference participants that will visit their poster.
- After the end of the session, authors are kindly requested to hang down their poster in order to facilitate the authors of the next session.

The personnel responsible for the organization of the conference will be glad to assist you in case you require their assistance.

For any questions, please contact the conference's secretariat in the following e-mail: secretary@ses.gr.
